

KEYUR MISTRY

Full-Stack Developer

keyurmistry19@gmail.com | linkedin.com/in/keyurmistry19 | Surat, Gujarat, India | DOB: 19 Oct 2000

PROFESSIONAL SUMMARY

Software Engineer with a Master's in Computer Engineering and 3+ years of hands-on experience building scalable full-stack applications. Proficient in Java (Spring Boot), Python (Django, FastAPI), Angular, and React, with strong expertise in REST API design, SQL optimization, containerization (Docker), and CI/CD automation. Demonstrated ability to deliver end-to-end ERP solutions and AI-powered systems in Agile environments. Seeking to leverage deep technical skills and a track record of performance at fast-paced, high-impact engineering teams.

EXPERIENCE

Sr. Full-Stack Developer

Potent Global Solutions Pvt. Ltd. — Surat, India

Sept 2025 – Present

- Architected and delivered scalable web applications using Django and FastAPI, serving thousands of daily active users.
- Designed and maintained RESTful APIs powering both client-facing and internal business applications.
- Optimized complex SQL queries on MySQL and PostgreSQL, improving response times significantly.
- Containerized services with Docker, streamlining dev-to-production deployments and eliminating environment inconsistencies.
- Established CI/CD pipelines to automate testing and deployment, reducing manual intervention and release cycles.
- Collaborated with cross-functional teams on code reviews, sprint planning, and feature delivery in Agile sprints.

Aug 2023 – May 2025 | Full-time Master's in Computer Engineering — Parul University (career break for studies)

Full-Stack Developer

Potent Global Solutions Pvt. Ltd. — Surat, India

Jul 2022 – Aug 2023

- Developed and maintained production-grade web applications using Django and FastAPI frameworks.
- Built RESTful APIs for diverse client and internal applications, ensuring high availability and reliability.
- Drove database performance improvements using MySQL and PostgreSQL through query analysis and indexing strategies.
- Integrated Docker for containerization, accelerating the development and deployment lifecycle.
- Implemented CI/CD workflows that reduced manual intervention and increased team productivity.

Internship – Full-Stack Developer

Potent Global Solutions Pvt. Ltd. — Surat, India

Jan 2022 – Jul 2022

- Developed and optimized backend services in Python using Django and FastAPI.
- Assisted in designing and implementing MySQL and PostgreSQL database schemas.
- Gained hands-on experience with API integration and third-party service connectivity.
- Participated in Agile ceremonies: sprint planning, daily stand-ups, and retrospectives.

Internship – AI/ML Developer

Zujo Pvt. Ltd. — Surat, India

Nov 2021 – Dec 2021

- Explored and implemented diverse machine learning and deep learning models end-to-end.
- Performed dataset collection, annotation, and preprocessing for supervised learning pipelines.
- Trained and fine-tuned models using supervised techniques; deployed them into real-world systems.
- Gained practical experience with AI/ML pipelines, deep learning architectures, and system integration.

PROJECTS

Driver Mileage Tracker

2025 – Present | Java · Spring Boot · Angular · PostgreSQL

- Designed and built a full-stack application for managing and tracking driver mileage records.
- Leveraged PostgreSQL for efficient data storage with optimized queries and fast API responses.

Attendance Monitoring System (YOLOv8)

Apr 2025 – Present | Python · Java · YOLOv8 · Angular · Deep Learning

- Built a real-time face detection and identification system using YOLOv8 to automate student attendance.
- Processed classroom images end-to-end: dataset collection, preprocessing, training, and deployment.
- Integrated model inference with a Java/Python backend and Angular frontend for a seamless workflow.

Water Quality Index Prediction

Nov 2022 – Dec 2022 | Python · Decision Tree · Random Forest · ML

- Built a WQI prediction system analyzing key parameters: pH, turbidity, dissolved oxygen, and BOD.
- Applied Decision Tree and Random Forest algorithms on real-world water sample data for accurate predictions.

TECHNICAL SKILLS

Languages: Java, Python, Kotlin, HTML, CSS

Frameworks & Libraries: Spring Boot, Django, FastAPI, Angular

Databases: PostgreSQL, MySQL

DevOps & Tools: Docker, CI/CD, Git, Kafka, API Integration

AI / ML: YOLOv8, Deep Learning, Supervised Learning, Computer Vision

Other: MS Office

EDUCATION

Master's Degree in Computer Engineering

Parul University — Vadodara, India

Aug 2023 – May 2025

Bachelor's Degree in Computer Science & Engineering

RNGPIT — Tajpor, India

Aug 2018 – May 2022

LANGUAGES & INTERESTS

Languages: English (Proficient) · Hindi (Proficient) · Gujarati (Native)

Interests: Cricket · Traveling
