Surat, Gujarat

SUMMARY

Accomplished Software Engineer with a Master's in Computer Science and hands-on expertise in full-stack development using Java (Spring Boot), React, Python, and Angular. Proven contributor to ERP solutions at Potent Global Solutions Pvt. Ltd. and internship as an AI-ML developer at Zujo Pvt. Ltd., with additional experience developing personal projects such as a Driver Mileage Tracker app and a YOLOv8-based attendance system. Skilled in designing REST APIs, optimizing SQL databases, and building responsive UI. Recognized for collaborative problem-solving and delivering innovative solutions in agile environments.

EXPERIENCE

Sr. Full-Stack Developer

Potent Global Solutions Pvt. Ltd 07/2022 - 08/2023 Surat

- Developed and maintained web applications using Django and FastAPI frameworks.
- Designed and implemented REST APIs for various client and internal applications. Optimized database performance using MySQL and PostgreSQL, improving query efficiency and reducing response times.
- Integrated Docker for containerization, streamlining the development and deployment process.
- Utilized CI/CD pipelines to automate testing and deployment, reducing manual intervention and increasing productivity.
- Collaborated with cross-functional teams on code reviews, bug fixes, and new feature implementations.

Internship - Full-Stack Developer

Potent Global Solutions Pvt. Ltd 06/2017 - 12/2019 Remote

- Developed and optimized backend services using Python, Django, and FastAPI.
- Assisted in the design and implementation of MySQL and PostgreSQL database schemas.
- Gained hands-on experience in API integration and third-party services.
- Worked in an Agile environment, contributing to sprint planning, daily stand-ups, and retrospective meetings.

Internship - AI-ML Developer

Zujo Pvt. Ltd. 11/2022 - 12/2022 Surat

- Explored various machine learning and deep learning models with practical implementations.
- Performed end-to-end **dataset collection, annotation, and preprocessing**.
- Trained and fine-tuned models using supervised learning techniques.
- Gained strong practical experience in:
 - AI/ML pipelines
 - Deep learning architectures
 - Real-world deployment and system integration

EDUCATION

Bachelor's Degree in Computer Science and Engineering

RNGPIT, Tajpor 08/2018 - 05/2022 Tajpor

Master's Degree in Computer Engineering

Parul University 08/2023 - 05/2025 Vadodara, India

SKILLS

Java	Python	Django	Git
Angular	CSS	HTML	3D modeling
Kotlin	AI-ML	Spring Boot	
Postgresql	MS office	Kafka	
Docker	CI-CD	API Integration	

PROJECTS

Driver Mileage Tracker

2025 - Present Surat

A full-stack application for tracking driver mileage using Java, Spring Boot, Angular, and PostgreSQL.

- Designed and built a full-stack application for managing and tracking driver mileage records.
- Utilized PostgreSQL for efficient data storage and management of driver records.
- Enhanced application performance with optimized queries and API responses.

Attendance Monitoring System with YOLO-8

04/2025 - Present Vadodara, India

Summary

- Developed a real-time attendance system using YOLOv8 for face detection and identification.
- Captured and processed classroom images to automatically mark student attendance.
- Collected and preprocessed datasets for training and validation.
- Gained hands-on experience in computer vision, deep learning, and AI-powered automation.
- Integrated the model with a Java, Python backend for attendance logic and a frontend in Angular.

Water Quality Index

11/2022 - 12/2022 Surat, India

Developed a system to calculate the Water Quality Index (WQI) using key water parameters

- Collected and analyzed real-world water sample data (e.g., pH, turbidity, dissolved oxygen, BOD).
- Implemented a prediction model using machine learning algorithms (e.g., Decision Tree, Random Forest).
- Gained experience in environmental data analysis, ML-based prediction, and scientific reporting.
